OBJECTIVE

Cybersecurity Student with Experience in Network Engineering. Seeking Internships in Security Domain.

EXPERIENCE

Network Engineer Intern — Feb 2024 - Apr 2024
Lovely Professional University — *Jalandhar, IN*

- Troubleshooted and configured networks adeptly, minimizing downtime and enhancing reliability through rapid problem resolution and meticulous configuration management as a skilled Network Engineer.
- Collaborative Project Contribution: Played a pivotal role in team projects, efficiently coordinating tasks and communicating with stakeholders.

PROJECTS

Wifi Login Automation. Implemented Python-based automation to optimize WiFi user authentication, streamlining processes and enhancing efficiency. Identified and rectified security flaws, including the absence of rate limiting and DDoS protection, resulting in improved network security and a more user-friendly experience

R-Port Scanner. Crafted a nimble Python port scanner for swift network reconnaissance, swiftly identifying open ports on target systems to aid network administrators and security experts. Enhanced script performance through threading and mastery of various Python concepts for quicker execution .

CERTIFICATIONS

- The Google Cybersecurity Certificate - Jan 2024
- CompTIA Network+ (N10-008) Course - Cybrary Dec 2023
- Practical Ethical Hacking -TCM Security - Jan 2024
- Programming in C++ - Codio - Nov 2023
- Complete 2023 Web Development Bootcamp - Mar 2023
- Junior Penetration Tester - July 2023

EXTRA-CURRICULAR ACTIVITIES

- Actively Participate in Several Capture the Flag Competitions and won 3rd Rank in University CTF and Top 5 in RCS National CTF Competition
- Actively Write Blog Posts on Medium on Security Topics and Issues and Showcase my Security Research on Blogs.
- Actively engage in public speaking engagements encompassing anchoring, speeches, debates, Model United Nations (MUNs), and more. Share insights, ideas, and perspectives on various topics, captivating audiences with dynamic presentations

SKILLS

Technical Skills	Python3, Linux, Computer Networks, Penetration Testing, Web Application Security
Soft Skills	Continous Learning, Leadership, Communication, Team Skills, Public Speaking

LEADERSHIP

- As Marketing Lead for the Cisco x LPU iGen Student Community at Lovely Professional University, spearheaded marketing initiatives for Symposium 1.0 and 2.0, attracting approximately 800 participants and hosting 15 speakers. Leveraged rapid learning capabilities to quickly upskill for the role, orchestrating successful execution of marketing strategies.
